## PROFILE SUMMARY

Front-End Developer with expertise in MERN stack technologies. Skilled in React.js, Next.js, Node.js, and MongoDB, with hands-on experience in creating responsive, high-performance web applications. Proven ability to deliver exceptional user experiences, manage real-time communication, and integrate APIs. Strong problem-solving, communication, and collaboration skills, enhanced by formal education and practical project work.

## EDUCATION

### Diploma in Professional Training (PTP) – Web and User Interface

- Information Technology Institute (ITI), Assiut Branch
- Oct 2023 – June 2024

### Bachelor of Science, Chemistry

- Faculty of Science, Al-Azhar University
- Oct 2019 – July 2023

## WORK EXPERIENCE

### Frontend Developer

Nafezly | Feb 2024 – Present

#### Transforming User Experiences through High-Performance Frontend Development

- Led the development of dynamic, scalable web applications, improving overall performance and usability for clients across various industries, resulting in increased user engagement.
- Collaborated cross-functionally with backend developers, UX/UI designers, and product managers to implement complex features and functionalities, reducing development time and improving efficiency.
- Enhanced the user experience by implementing cutting-edge UI components using Chakra UI and Tailwind CSS, leading to more visually appealing and user-friendly applications.

## PROJECTS

### Wuzzef – Employment Site

#### July 2024 | Next.js, Node.js, React.js, PostgreSQL

- Integrated PostgreSQL as the database for managing users, job postings, and applications, ensuring secure and efficient data handling.

### Social Media App

#### May 2024 | React.js, Node.js, MongoDB, Express.js, Socket.io

- Utilized MongoDB for scalable storage of user data, posts, and interactions.

### E-Commerce Website

#### March 2024 | React.js, Node.js, MongoDB, Express.js, Stripe

- Utilized MongoDB for product and user data storage, ensuring smooth and reliable operation.

## PROJECTS

### Chat-App

**January 2024 | React.js, Node.js, MongoDB, Express.js, Socket.io**

- Integrated Socket.io for instant communication and MongoDB for message storage, ensuring fast and responsive user experiences.

### Dashboard

**May 2023 | HTML, CSS**

- Designed and developed a responsive dashboard using pure HTML and CSS, offering interactive data visualization and a clean user interface.

## COURSES

### Professional Front-End Web Development

**Feb 2023 – June 2023 | Udacity**

- Gained advanced skills in HTML5, CSS3, JavaScript, and modern frontend frameworks, with a focus on responsive design and performance optimization.
- Worked on projects utilizing React.js and ES6, building scalable web applications.

### Web Development Challenger

**Nov 2022 – Jan 2023 | Udacity**

- Developed a foundational understanding of web development, covering HTML, CSS, and JavaScript.
- Completed hands-on projects, implementing essential web functionalities and basic front-end development principles.

## TECHNICAL SKILLS

- Frontend Development
- React.js and Next.js Expertise
- MERN Stack Development
- RESTful API Integration
- MongoDB and PostgreSQL Management
- Real-Time Web Applications (Socket.io)
- UI/UX Design with Tailwind CSS and Chakra UI
- State Management with Redux and Recoil
- Version Control with Git and GitHub
- Full-Stack Web Development

## KEY SKILLS

- Strong problem-solving abilities
- Effective communication skills
- Team collaboration and leadership
- Adaptability and quick learning
- Time management and organization skills

## LANGUAGES

- **Arabic:** Native (C2)
- **English:** Good (B1)

## PERSONAL INFO

- **Date of Birth:** 01/01/2001
- **Nationality:** Egyptian
- **Marital Status:** Single
- **Military Status:** Exemption
